Dear Sir/Ms.:

I am a university student researching policy questions concerning tobacco, and wonder if there might be any information you could send to assist me. I am interested in:

- general information regarding your views on public policy in relation to tobacco and public health;
- information on whether or not (a) public health concerns and (b) concerns about the fiscal impact of any future court decisions on tobacco liability should give any potential tobacco corporation ~~inv~~ stockholder misgivings about such investments; and
- information on your response to anti-tobacco shareholder resolutions at tobacco stockholder meetings.

Any information you could send would be of great interest. Thank you for any help you can give.

Sincerely,

Robert W. Bleakney
